

## PROGRAMME

**Tuesday – February 19, 2002**

– *Chairwoman Faina Solov'eva* –

9:00 **Vladimir Balakirsky, "On the Performance of Permutation Codes for Multi-User Communication"**

9:45 **Ludo Tolhuizen, "Coding for Informed Decoders"**

10:30–11:00 – *Coffee Break* –

11:00 **Vladimir Levenshtein, "Combinatorial and Probabilistic Problems of Sequence Reconstruction"**

11:55 **Pavel Vilenkin, "On a Class of Codes for the Insertion–Deletion Metric"**

12:35 **Arkadii Dyachkov, "Statistical Estimation of Average Distances for the Insertion–Deletion Metric"**

13:00 –  
14:30 – *Lunch* –

14:30 **Gyula Katona, "A Coding Problem for Pairs of Sets"**

15:15 **Hyun Kwang Kim, "On Optimal Superimposed Codes"**

16:00 **Ulrich Tamm, "Some Aspects of Hankel Matrices in Coding Theory and Combinatorics"**

16:30 –  
17:00 – *Coffee Break* –

17:00 **Lloyd Demetrius, "Entropy in Thermodynamics and Evolution"**
