

4th Spring School

Analytical and Numerical Aspects of Evolution Equations

March 19-23, 2012 at Bielefeld University

© Dirk Brinker, Bielefeld

Joachim Escher (Hannover)

Analytical aspects of thin film models with Marangoni effects

Matthias Hieber (Darmstadt)

Analytical aspects of geophysical flows

Ansgar Jüngel (Vienna)

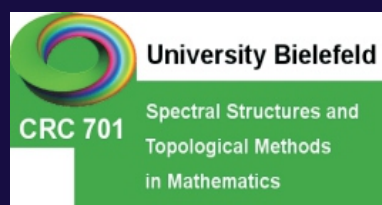

Entropy dissipation methods for nonlinear PDEs

Rico Zacher (Halle)

A priori estimates, regularity, and asymptotics for nonlocal in time PDEs
